

# Tri-State High Tunnel School Webinar Series

JOIN EXTENSION PROFESSIONALS FROM OHIO STATE UNIVERSITY EXTENSION, PURDUE UNIVERSITY AND MICHIGAN STATE UNIVERSITY

## Beginner: High Tunnels and Other Season Extension Options Feb. 25

During this session, MSU Extension Specialist, Chris Gallbraith, will explain the ins and outs of high tunnel production and how high tunnels can extend the growing season

## Intermediate: Irrigation Techniques for Food Safety March 18

Extension Specialist, Phil Tocco, will help guide participants in irrigation techniques and strategies. He will also provide options for chlorination and how that relates to food safety.

## Beginner: Growing Fruits in High Tunnels March 4

Throughout this presentation, Extension Specialists, Dr. Gary Gao, Ryan Slaughter and Tom Harker from OSU, will explain growing blackberries, raspberries, strawberries and figs in high tunnels

## Advanced: Pest Management March 25

Throughout this session, Extension Specialist, Dr. Laura Ingwell, will explain pest management options within a high tunnel as well as how to determine when these pest management practices should be used.

## Intermediate: Highly Economic Vegetable Crops March 11

Purdue University Student Farm Manager, Chris Adair, will explain which vegetable crops are highly economic products and how to grow them using high tunnels.

## Advanced: Innovations in High Tunnel Management April 1

Join us as Extension Specialist, Dr. Matt Kleinhentz discusses new technology that can be implemented in high tunnel production to increase production and decrease costs. Also, State Outreach Coordinator for USDA NRCS Natural Resource Conservation Service, Carlton Howard, will be explaining funding option.

All sessions will be hosted via Zoom (12:30 - 1:30 p.m. EST).
